## Contest Results

Results of the 80 Metres Counties Contest held in June have now been published. Just 11 station logs and one SWL log were received, with 17 of the 32 counties active in the contest. See [www.irts.ie/results](http://www.irts.ie/results) for the IRTS Contest Results page, and congratulations to the award winners.

Our contest manager tells us that the June 80 metres contest will be dropped from next year's contest calendar, but an additional 40 metres counties contest, probably in the Autumn, will be added.

## CQWW World Record

Congratulations to Pat O'Connor EI9HX who came first in the 80 metres SSB Single Operator Low Power Assisted section of the CQ World Wide DX Contest held in October 2014. Pat's score of 196,000 from almost 1,500 QSOs represented a new world record for this category. Well done to Pat!

## 2m Nets

SEARG will continue their 2m net on Tuesday nights after the IRTS weekly news. This is to promote the use of the band, which has seen a decline in use. The intended frequency used is 145.400MHz and net has had many stations calling in since its introduction. Everyone welcome to join in.

Fingal Radio Club and Dermot EI2HD continue their 2m call-in on Wednesday and every Wednesday at 7p.m. Please try and give your support by getting on the air. Keep 2metres alive. The frequency is 145.7625MHz, CTCSS 88.5KHz on the Dublin repeater

## VHF/UHF Squares Table

The VHF/UHF squares table for 2015 runs from January - December inclusive. It is never too late to submit numbers to this table as these are updated on a monthly basis. We would be interested in squares worked on all VHF/UHF bands up to 10GHz.

Please mail your squares listed by month to Steve EI5DD [wrights1/at/eircom/dot/net](mailto:wrights1/at/eircom/dot/net)

## **70MHz (4M) Awards**

To celebrate the likely adoption of the band 69.9 – 70.5 MHz as a secondary amateur

allocation in the European Common Allocation Frequency Table and Ireland's significant involvement in the process, IRTS is pleased to launch two new 4m awards. The purpose of the awards is to recognise and promote DX achievements by amateur radio operators interested in the range 69 – 74 MHz. In-band and Cross-band awards are available. Log extracts are required and there is currently no charge for the awards. Full details are available on IRTS website
